Certified product: **Smart Defender SD9-5**

Based on the results of research project P50 1.8.2 and the accompanying expert report dated May 27, 2026, the SD9-5 product from IPC GmbH's ProtectPro series is authorized to bear the BESA seal of approval.

The tests confirm the product's effectiveness, as determined by the BESA testing methodology, in relation to magnetic and electromagnetic interference fields, including mobile communication-based frequency applications (4G, 5G, and 6G), in electric and internal combustion engine vehicles. The validity of this quality seal expires on December 31, 2028.
